Certi-Shine®
the smart choice in flooring
Certi-Shine®

the smart choice

Vexcon manufactured Certi-Shine is your single source, fully compatible suite of high performance products for polished concrete. From developing the latest product innovations to educating and certifying the best contractors, Certi-Shine delivers the best looking polished concrete floors.

When you specify or install a Certi-Shine floor, you choose from clear or unlimited colors, three levels of shine, with available stain protection, color enhancing and Fusion floor repair.

Choose clear or color

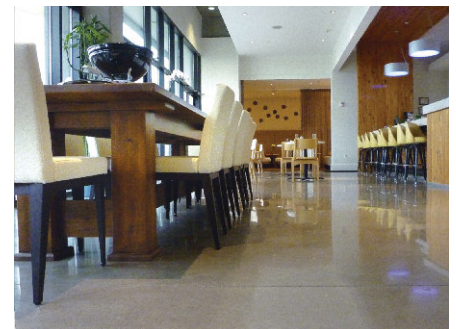

Choose the shine

Satin-Shine Silver

- Warm Shine
- Equivalent to 60° film gloss of 30 when viewed on an angle.

Medium-Shine Gold

- Medium Reflectance
- Equivalent to 60° film gloss of 60 when viewed on an angle.

High-Shine Platinum

- Maximum reflectance
- Equivalent to 60° film gloss of 80 when viewed on an angle.

Choose the system

Certi-Shine Clear

Enhance the natural beauty, durability and performance of polished concrete.

- Spray on to fully densify concrete
- No whitening, rinsing or scrubbing
- Zero VOCs

Certi-Shine Clear FSR

The next level of stain protection with the industry leading stain resistance technology.

- Remove un-reacted silicate with Certi-Shine Fixative
- Eliminate the threat of staining with Certi-Shine Finish Coat Ultra
- The only non-film-forming 24 hr stain protection

Certi-Shine MicroStain

Achieve color with a potassium silicate water based stain to strengthen and provide abrasion resistance.

- 20 standard or custom colors
- Backed by a 10 year warranty

Choose companion products

Further improve the performance and appearance of your Certi-Shine polished floor with our optional value added companion products.

Certi-Shine Finish Coat CE

The color enhancing treatment that improves the floor's traction, depth of color and overall appearance. Available in 20 standard and custom colors.

Certi-Shine Fusion™* & Fusion LG

Our proprietary invisible floor repair technology that improves the appearance, gloss and clarity of your floor.

Use with Certi-Shine Clear, Clear FSR or MicroStain

- Fills pin holes and pop outs while grinding
- Fills cracks and crazing while grinding
- Fills spalls and divots while grinding
- Polish or grind, and densify in 1 hour

Choose the Industry Leading Technology:
