## Transform new or rejuvenate existing colored and gray concrete

### prepare the surface

#### Certi-Vex Etch & Efflorescence Remover

Removes efflorescence, concrete laitance, mortar smears as well as atmospheric, rust and other construction stains. Opens concrete pore structure.

#### Certi-Vex Rust & Stain Remover

Removes rust stains as well as hard water scaling and efflorescence from concrete, pavers, decorative rock and stucco. Also removes leaf, grass and berry stains.

#### Certi-Vex Super Degreaser & Cleaner

Industrial grade cleaner formulated to remove grease and oil stains, tire marks and dirt from concrete surfaces.

#### Certi-Vex Concrete Stripper

Removes many types of coatings from concrete. Easy to apply, emulsifies into water yielding a clean prepared surface.

### choose a color

#### StarSeal Color Tints

- Provide a simple and easy way to add color to new and existing concrete.
- Use on horizontal as well as vertical surfaces.
- Excellent color retention.
- Tinting on-site provides a flexible cost effective color delivery method.
- Custom colors and color matching available.

### choose a look and finish

#### StarSeal Color Cure

- Prevents efflorescence, dusting and spalling.
- Ideal method for curing fresh concrete.
- Provides for complete development of concrete's wear resistance and strength properties.

#### StarSeal Color Stain

- Semi-transparent gloss finish.
- Seals and hardens surface, reducing clean-up and maintenance.
- Protects against staining, attack by alkali, oil, cleaners and common industrial chemicals.

#### StarSeal Color Seal

- Solid color finish.
- Corrects variations in colored concrete.
- Protects against staining, attack by alkali, oil, cleaners and common industrial chemicals.
