

StarSeal® PS Clear

Concrete Permanently Sealed

Enhance the natural beauty and performance of concrete. StarSeal PS Clear is a densifier, hardener and sealer that penetrates rapidly, requires no scrubbing or rinsing, and quickly produces a shiny, permanently sealed, low-maintenance concrete floor. Our high solids formula economically delivers more silicate to the concrete for superior hardening, dust-proofing, abrasion and stain resistance making it ideal for distribution, commercial, and institutional environments.

- Densified/Hardened and Polished Concrete
- High Solids – Best Performance
- Performance Warranty
- Zero VOC
- Fast – Easy to Use
- Lasting Shine

Concrete solutions for architects, engineers and builders since 1974

StarSeal PS Clear

Densified to Rejection

- Superior hardening, abrasion resistance and dust-proofing
- Delivers more silicate (18% active material) to the floor
- StarSeal PS Clear HB designed to fix soft thirsty/porous concrete
- Lasting shine: looks new years after installation
- 20 year performance warranty

Versatile and Stylish

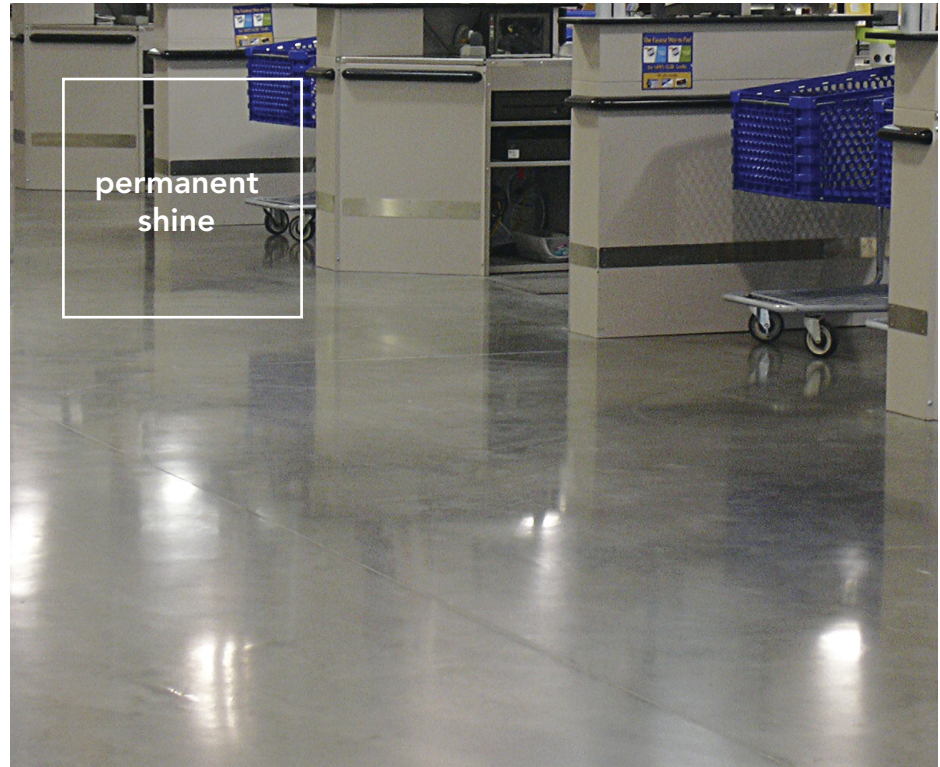

- New or existing, interior or exterior
- Seals and protects decorative concrete
- Takes excessive forklift use
- Wear-pattern free
- Resistant to food staining

Easier Installation

- Spray apply
- No scrubbing or rinsing
- No whitening
- Increased production rate

Green & Long Term

- Zero VOC
- LEED points
- Minimal waste water
- Low maintenance
- Low life-cycle cost

Ideal for:

- Automobile Dealerships
- Distribution Centers
- Grocery Stores
- Restaurants
- Educational Facilities
- Stadiums and Sports Arenas
- Parking Decks
- Civic Centers
- Correctional Facilities
- Retail Stores

Spray Apply	Yes	No	Yes
Scrubbing/Rinsing Required	No	Yes	No
High Solids	Yes	Yes	No
Whitening	No	Yes	Yes
Economical	Yes	Yes	No
Food Stain Resistance Available	Yes	Yes	Yes

StarSeal PS Clear Competitor

Smaller molecule size rapidly penetrates and reacts creating calcium silicate hydrate, all without scrubbing or rinsing.

Larger molecule size & less active ingredient result in slower penetration and a reduced amount of silicate reactions. Scrubbing and rinsing is required.

The StarSeal PS difference:
Harder and densified to rejection
