

StarSeal® PS floors

Permanent Strength | Permanent Seal | Permanent Shine

StarSeal PS products transform new or old concrete into beautiful, low-maintenance and long-lasting floors. Whether densifying/hardening or polishing, a StarSeal PS floor will capture the natural beauty of concrete and produce harder, extremely durable and dust free concrete floors. These glossy, slip, abrasion and stain resistant floors do not require the use of any surface treatments* which wear off and are costly to maintain. StarSeal PS floor systems include all the products needed to prepare, repair, color, densify, protect and maintain any concrete floor.

IDEAL FOR:

Warehouses | Automobile Dealerships
Distribution Centers | Grocery Stores
Restaurants | Shopping Centers
Educational Facilities | Civic Centers
Manufacturing Plants | Parking Decks
Stadiums | Sports Arenas
Correctional Facilities | Retail Stores

Concrete solutions for architects, engineers and builders since 1974

StarSeal® PS floors

BEFORE

AFTER

Rethinking Concrete: Rather than simply covering or coating the flooring surface, Vexcon StarSeal PS floor systems offers a permanent solution to concrete floor protection and enhancement. Our process begins with the application of StarSeal PS Clear liquid densifier – the foundation of a StarSeal PS floor. When properly applied, our densifier transforms the concrete into a harder, more durable, abrasion resistant and dust-free surface that is easy-to-clean.

Beauty and Durability: A StarSeal PS floor also takes on a permanent and attractive shine which increases over time with use. You can also choose to immediately create a high-gloss architectural floor with the optional polishing or burnishing process. Other value added options include decorative color, stain protection and products to enhance gloss and clarity to densified or polished floors.

Saves Money: Once complete, a StarSeal PS floor starts to save you money. Since there is nothing to wear off the surface, or anything to replace, a StarSeal PS floor requires little ongoing maintenance. With a longer life span over other flooring materials, you'll save on labor and material costs.

Depending on your budget and project requirements, Vexcon offers four StarSeal PS systems to choose from.

PREPARE

Floor treatments to prepare concrete floors.

Super Degreaser & Cleaner Concrete Stripper FC Floor Cleaner

- Remove laitance from new concrete
- Remove coatings, oils and other contaminants from existing concrete

REPAIR

Invisible surface repair treatment that improves the appearance, gloss and clarity of concrete.

StarSeal Fusion
